

# Parrish Fireplace Tune-Up

Today's leading fireplace manufacturers recommend that all natural gas fireplaces have an annual service tune-up. If it has been more than a year since your last service, one is recommended for safety purposes and proper operation of the fireplace.

A Fireplace Tune-up by Parrish includes:

- Checking and adjusting all settings to factory specifications
- Cleaning and inspecting the glass and glass seal
- Cleaning the inside of the fireplace
- Replacing the glowing embers
- Checking for gas and carbon monoxide leaks
- Testing gas pressure and system voltage
- Checking system venting

Parrish's factory-trained technicians will arrive in a company van that is stocked with the most common fireplace replacement parts. If a repair is needed in addition to the fireplace tune-up, we will most likely be able to take care of it on the spot, without requiring an additional trip to your home. Email us at [Kelly@parrishtx.com](mailto:Kelly@parrishtx.com) to request service.

**STARTING AT \$149.00\***

*\*Additional charges may apply based on location and/or type of fireplace, or if additional parts are needed.*
